Godfather of Modern Inflation bribed Judge Luis Delgado: Proof by **JudgeX** (new bribery-detection tool)  
1 October 2024

POWER / PROFITS / PLEASURES; then if necessary bribe a Judge to get away with it.

Warren Mosler is a **public figure** as the inventor of 'Modern Monetary Theory'.

Judge Luis Delgado is a **public official** stating in the Wagner v Mosler trial, "I'm a public official. You can say the most horrible things about me, it's okay, you know." – Tr. pg 1981 In 10-12.

Warren Mosler, founder of the \$57,000,000,000 Hedge Fund, iicm.com, bribed a Palm Beach, Florida Judge to escape from \$310,000,000+ of compulsory and **punitive damages**. Removed the Jury.

JudgeX is battle-proven Statistical Process Control adapted to Judicial machinery. James Todd Wagner (Yale SOM '00) and Yale School of Management Professor, Art Swersey, created JudgeX with technology that has been in place for decades to track and evaluate QUALITY OF OUTPUT.

Judges go 'Out-Of-Control'.

Then, the Lawyer-fraternity protects scumbag Judges via their "bro code"; Reuters found that 9 out of 10 Judges who were discovered as corrupt kept their job as a Judge.

Only lawyers(judges) are allowed to levy punishment on their fellow fraternity brothers, Judges.

JudgeX takes amorphous facts and resolves them into a single number, that makes Bribery / No-Bribery obvious. JudgeX can also identify a Bribe via graphically tracking the historical output of a Judge. A JudgeX indicator of "Out-Of-Control" Judicial Machinery exposes corrupt Judges without having to follow-the-money. With Cryptocurrency, it is now impossible to follow-the-money; thus the only way to identify Judicial Bribery with any accuracy is to use Math on the EXTERNAL/VISUAL OUTPUT of the Judge.

JudgeX.org shows how to use this tool, plus proves that Warren Mosler, the man who rebranded 'Warlord Economics' into '**Modern Monetary Theory**' ('**MMT**') bribed Judge Luis Delgado.

MMT is why citizens of Zimbabwe starved to death as Billionaires.

MMT is why 'modern' Americans cry at the grocery store.

MMT is why the rich are becoming spectacularly rich...Warren Mosler giggles about this in one of the videos that III Capital Management, has now hidden behind a password on the 'Videos' page of their website: iicm.com. [ModernMonetaryTheory-Scam.com](http://ModernMonetaryTheory-Scam.com)

The few little girls who escape from the sex trade alive, and have the wherewithal to get her rich rapist in front of a Judge, often have their cases suddenly thrown out. Everyone-knows [but no one can prove] that the Judge took a bribe. **Prove the bribery with JudgeX** – free for everyone.
